## About School Summit Africa

---

**T**he School Summit Africa is the first of its kind in the continent, bringing school communities together for learning, networking, collaboration and synergy towards achieving quality education for all.

It aims to advance quality, sustainable, and inclusive education in African schools through advocacy, policy engagement, insightful discussions, collaborative learning sessions and commitments of participating schools and stakeholders to achieve the goals.

# Urgency and Give Areas Crisis

## Challenges

Education systems struggle with relevance, equity, and quality for growing youth.

## Need for Change

Shift from traditional methods to resilient, inclusive, and relevant education models.

3.0

# Ten Crisis Areas to Address

## Poor Infrastructure

There is limited access to the internet, unstable power supply and insufficient devices.

## High Cost of Technology

Expensive internet data, hardware and maintenance costs and limited funding

## Low digital literacy

Teacher's Skill Gap, Student's limited exposure and leadership gap are major challenges

## Resistance to Change

Cultural and Institutional resistance, the fear of job displacement and policy misalignment are issues to critically contend with

## Inequality and Digital Divide

This is a major issue that remains critical. Rural-Urban disparity, socioeconomic and gender gaps are cases that need urgent solutions.

## Poor Policy Implementation

Many digital education programs lack coordination and sustainability, short-term projects are not properly integrated and there's lack of proper monitoring and evaluation

## Inadequate Local Content and Language Barriers

Digital materials are often created abroad, misaligned with African contexts, Many e-learning platforms are in English or French, limiting accessibility.

## Data Privacy and Cybersecurity Risks

Weak Data Protection Laws, Schools are vulnerable to hacking, data theft, or misinformation.

## Sustainability and Scalability Challenges

Dependence on Donor Funding, Limited Technical Support and Scalability Issues are issues to consider.

## Misalignment Between Education and Labor Market Needs

Outdated Curricula or the one that does not match with current realities, Disconnect from Industry.
